Dariuz Davey

Maths

This term in Maths we have learnt all about fractions including ordering and comparing fractions, adding and subtracting fractions, multiplying and dividing fractions as well as converting improper fractions to mixed numbers and vice versa. For example:

$$\frac{10}{4} = 2 \frac{2}{4}$$

Doodle Maths

In school we have been using Doodle Maths and Doodle Tables as an interactive ICT-based interventions for students to practise their maths and learn their times tables.

Students have their own logins and can continue this at home as maths homework by downloading the apps on to a phone or tablet, or by logging on to doodlemaths.com on a computer.

Annual Reviews

An important date for the diary is Thursday 21st March 2019. School as normal will be closed and parents and carers will be invited in with their child for an annual review of their EHCP.

PE kits

Our PE days are Monday and Thursday. Please make sure kits including trainers are brought in as students should not join in PE without them.

WoW

In WoW (Ways of Wellbeing) this term we have been learning about First Aid and how to help someone suffering from an asthma attack, bites and stings, and bleeding.

Students have practised putting on bandages. We will continue next term looking at the recovery position and CPR.

In other WoW sessions we have been practising speech and language skills in games and activities as well as learning about Fair Trade.
